

ONE

DAY AT FINNS

BY JOANNES RHINO

It is without a doubt that this island offers numerous activities to keep children engaged. Ranging from nature visits to water-based fun, video gaming halls to sporting activities, the list is endless, and all dedicated to allowing parents a little breathing space while at the same time giving them a chance to bond with their children.

The fact that Bali is getting crowded narrows down the options for parents to do multiple activities with their kids over the weekend. We can waste time in traffic if attempting to visit multiple venues one after another, seeking out activities to satisfy the whole family. Instead, why not head to Canggu and visit **Finns Recreation**

Club where the best attractions for families are jam-packed in one convenient location.

Coming up with their version of Disney World, this club offers something for every child's dream to expel some of that boundless energy with a host of sporty activities. To make the visit even more memorable, Finns has prepared

a Super Fun Pass where visitors gain a one-day free access to Splash Water Park, Strike Ten Pin Bowling, Bounce Trampoline Centre and Finns Beach Club.

Start your day at the Splash Water Park. Featuring world-class water slides, this water park provides hours of fun with 4 rides to choose from. For those

looking for something extreme, the Big Red weaves and rolls through the curves with momentum intensifying at every turn from the fifth story to the finish, while the Super Bowl takes a tailspin around the bowl before shooting you deep into the plunge pool below. For speed fans, Giant Racer and Speed Racer offer a long slide for you to race with the other members of the family. For a perfect time out from the excitement of the slides, head over to the Crazy Creek to relax and admire the ambience of the entire park. If you are coming with toddlers, share an aquatic adventure with your little ones at Splash Playground.

After lunchtime, you may want to continue your day out at Strike Ten Pin Bowling. Not only dedicated to bowling enthusiasts, your kids can also have a great time here. With automatic pinsetters and computerised scoring system, you can either enjoy the game as individuals or form teams with other visitors. For Kids Strike Bowling, bumpers on the side of the lanes are provided to prevent the ball from going into the gutter. The venue has an air-conditioned restaurant, so you can consider having lunch here.

Next, go to the Bounce Trampoline Centre. Specifically designed for keeping the fun charged up, this

attraction draws kids to it like no other. Unlike trampolines at other places, here at Finns, they have a specially designed, spring-loaded frame allowing you to bounce higher. Whether flip forward or backwards, your kids can easily perform tricks and somersaults on the trampoline. The safety aspect has also been properly put in place with two-inch-thick safety pads all over this venue.

To end your day perfectly, get on a free shuttle bus service to Finns Beach Club. Located in front of the famous Berawa surf break, enjoy a lazy day out from the comfort of the daybeds near the infinity edge pool or by the beachfront. The beach club is well-situated, allowing visitors to enjoy wonderful sunset views from the best angle. The upbeat music played by the DJs match the vibe of the venue.

Finns Super Fun Pass is perfect for those heading out to Canggu for the day. If you plan on staying a little longer, Finns Recreation Club also offers different day passes and membership options at reasonable rates. So, stop bothering yourself with the tedium of trying to coordinate your own line-up of activities. With Finns Super Fun Pass, all you need to add is your enthusiasm!
